PROFILE

Full Stack Software Engineer with 1+ year of professional experience building production web and mobile applications with TypeScript, React/Next.js and Node.js. Currently delivering a multi-tenant healthcare SaaS platform for Swedish clinics — regulatory compliance workflows, PostgreSQL Row-Level Security, REST APIs and a React Native app shipped to Google Play. Comfortable owning a feature end-to-end, from database schema to release.

EXPERIENCE

Software Engineer · Codemoly

FEB 2026 – PRESENT

The Emporium Tower, Shyamoli, Dhaka

- Full-stack developer on Lumiis, a multi-tenant healthcare SaaS platform — shipping features end-to-end across a Next.js web app and a React Native app that share one pnpm monorepo, TypeScript packages and PostgreSQL database.
- Design schema changes and author Drizzle ORM migrations against a 70-table multi-tenant PostgreSQL database secured with Row-Level Security, and build the REST APIs consumed by both the web and mobile clients.
- Own Android release engineering to Google Play, and maintain test coverage with Vitest and Playwright behind a GitHub Actions pipeline that gates every merge on typecheck, lint, tests and translation parity.

Software Developer · BemanTech Ltd.

JUN 2025 – FEB 2026

Tongi, Gazipur

- Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) alongside Next.js and Vue.js.
- Built secure RESTful APIs with JWT authentication and role-based authorization, and implemented responsive, cross-browser user interfaces from design handoff.
- Collaborated in a cross-functional team to integrate frontend interfaces with backend services and third-party APIs, and reviewed code to keep the codebase maintainable.

Lumiis — Clinic Compliance & Treatment Management SaaS

FULL STACK · WEB & MOBILE

Developed a multi-tenant SaaS platform for Swedish aesthetic clinics, covering clinical workflows, device management, treatments, patient communication and regulatory compliance.

- Built role-based access control across 4 user roles, with granular practitioner permissions enforced across web, REST APIs, mobile and PostgreSQL Row-Level Security.
- Implemented SSMFS 2026:1 compliance workflows including device registration, delivery inspections, functional checks, digital signatures, consent management, audit logging and Swedish PDF/A report generation.
- Developed and maintained features across Next.js web and React Native mobile applications, backed by a 70-table PostgreSQL database and Drizzle ORM.
- Contributed to automated testing and CI/CD using Vitest, Playwright and GitHub Actions, and handled Android release engineering through Google Play.

Next.js · React · TypeScript · React Native · Expo · PostgreSQL · Drizzle ORM · Better Auth · REST API · Socket.IO · Tailwind CSS · Vitest · Playwright · GitHub Actions

lumiis.se

Courier Management System

BACKEND & API

Developed a role-based RESTful API for courier and parcel management using Node.js, Express.js and MongoDB.

- Implemented JWT authentication, Role-Based Access Control (RBAC), full CRUD operations and admin-level authorization for parcel management.

Node.js · Express.js · MongoDB · JWT · RBAC

github.com/HridayMahmud/courier-management-backend

Mini Cloud Storage System

BACKEND & API

Built a RESTful cloud storage service with file upload, file deletion and per-user storage management enforcing a 500 MB quota.

- Added request validation and concurrency handling to keep file and storage operations reliable under parallel writes.

Node.js · Express.js · MongoDB · REST API

SKILLS

Languages	TypeScript, JavaScript (ES6+), PHP, SQL
Frontend	React.js, Next.js, Vue.js, Tailwind CSS, HTML5, CSS3, Bootstrap
Backend & API	Node.js, Express.js, Laravel, RESTful API design, Socket.IO
Database & ORM	PostgreSQL, MongoDB, MySQL, Drizzle ORM, Prisma
Auth & Security	JWT, Better Auth, Role-Based Access Control (RBAC), PostgreSQL Row-Level Security
Mobile & DevOps	React Native, Expo, Google Play releases, GitHub Actions, Vitest, Playwright, Git, pnpm monorepo
Also worked with	C++, Python, Java, SQL Server

EDUCATION

B.Sc. in Computer Science & Engineering (CSE)	2024 · CGPA 3.22
Bangladesh University of Business & Technology (BUBT)	
Higher Secondary Certificate (HSC) — Science	2016 · GPA 4.50
Vashantek Govt. College	
Secondary School Certificate (SSC) — Science	2014 · GPA 5.00
Rupshi High School	

ADDITIONAL

Languages	Bangla (Native), English (Fluent — professional working proficiency)
-----------	--
